NEW

The very latest in sewage treatment plant

Clereflo ASP 6-20

Package sewage treatment plant

Conder Products Ltd, the UK leader in the design and manufacture of water and wastewater treatment systems, has added to its extensive range of sewage treatment solutions, with the introduction of the new Clereflo ASP series.

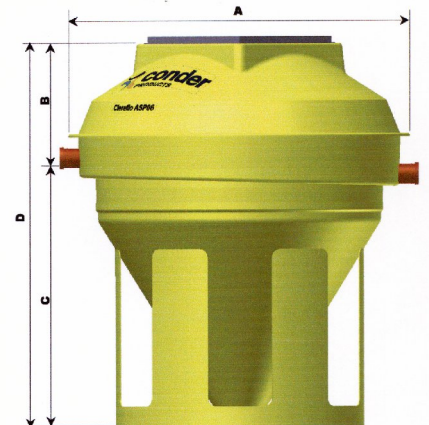

Designed in accordance with BS6297 & EN12566-3, serving a population range from 6-20 persons, the new Clereflo ASP is suitable for residential and commercial projects where mains drainage is not available.

A full service and technical package is available which can include product support, installation, commissioning, de-sludging, service and maintenance.

Features & benefits

- Excellent value for money
- Completely below ground installation
- Easy to install
- Proven technology with reliable performance
- Quiet operation & odourless
- Compact design with no moving parts
- Typically 3 year de-sludging period
- Deeper inverts available with standard extensions
- Pumped discharge (options)

Ideal for greenkeeping / grounds maintenance facilities, single dwellings, permanent caravan, rural barn conversions etc., where installation of mains drainage is impractical

Clereflo Unit	ASP06	ASP12	ASP16	ASP20
Population Equivalent	6	12	16	20
Hydraulic Load (l/day)	1200	2400	3200	4000
Organic Load (g BOD5/per day)	360	720	960	1200
O/A diameter (mm)	A	2080	2080	2080
Standard Inlet Invert (mm)	B	742	742	742
Inlet Invert To Base (mm)	C	1570	1870	1970
